Corporate Interior Design (UK) Ltd Office Partitions, Mezzanine Flooring, Racking from Corporate Interior Design, UK With working space being such a valuable resource to our clients, it is very important that our clients utilise that space in the most efficient manner. At Corporate Interior Design, we are able to advise and implement office design plans in order to improve your working environment both practically and aesthetically to suit your requirements. Corporate Interior Design successfully provides a national service at the highest level to a wide range of clients and organisations, from the smaller end user to the larger major building contractor, architects and specifiers. We provide a full background support from interior design and building regulations through to a quality front line installation service. Our services include design and installation of office partitions, mezzanine flooring, pallet racks, storage racks, modular shelving, suspended ceilings, and more. The company has a sound financial trading record and many years of project management experience throughout its staff. The company's in-house facilities include an excellent cross section of experienced staff as well as the latest office technology and internet links. Our company philosophy is to offer a highly professional service using the most modern technical article advances, whilst still maintaining the personal touch with our clients. Overview: We offer a full design and space planning service which may be required prior to quotation or prior to the

assembly of tender documents in order to confirm the needs and requirements of our clients. Our services may include the preparation, submission and obtaining of planning/building regulations approval on our clients behalf as necessary. A continuously up-dated computer aided design facility/e-mail/internet service is available for the benefit of our clients at all times. Our core services include the supply and installation of mezzanine floors, suspended ceilings and various associated works to suit both office and industrial environments. CID has the facility and experience to operate both as a main contractor or as a specialist sub-contractor to the construction industry. Regular on-site monitoring of our contracts are carried out by one of our contract managers throughout the duration of the works in order to maintain the required schedules and quality of workmanship. Some of the Services we Offer Include: Flooring Hampshire • Partitioning Hampshire • Office Fitting Hampshire • Suspended Ceilings Hampshire • Shelving Hampshire
