Konecranes UK, East Kilbride, Scotland, UK Konecranes is a world-leading group of Lifting Businesses™, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. Regardless of your lifting needs, Konecranes is committed to providing you with lifting equipment and services that increase the value and effectiveness of your business. For over 80 years, we have been dedicated to improving the efficiency and performance of businesses in all types of industries. And we have done this by continuously providing cranes, lifting products and services people can trust. When you choose Konecranes, you acquire a unique source of global experience and knowledge combined with local know-how to empower your lifting solutions and increase your productivity. From our crane manufacturing factory in East Kilbride, Scotland and our 9 crane service branches spread across the UK, we can provide you with comprehensive solutions that are seamlessly integrated into our customer's processes. Industrial Cranes Konecranes sets the industry benchmark for safety, reliability, cost saving and productivity-enhancing innovation. In the UK we have a crane manufacturing plant in East Kilbride, Scotland, which designs and manufactures overhead cranes. Standard and heavy-duty cranes include electric overhead cranes up to 1,000+ tons and explosion-proof cranes and components. Workstation lifting systems feature enhanced material flow with

ceiling-mounted monorails and free standing cranes systems, jib cranes and manual lifting products, and electric chain hoist up to 7500 kg. At Konecranes we can provide any lifting application for any industry.

Crane ServiceIn the UK Konecranes employs over 230 fully trained technicians who are spread across the country to cover your service needs. Our network of 9 crane service branches allows our customers to access all our services locally. We provide an extensive range of services and unique capabilities dedicated to improving safety and helping your business decrease the cost of downtime and increase the productivity of uptime. We can service any make of crane and hoist. With a global network of maintenance professionals operating from more than 600 service depots around the world, we repair, inspect and maintain more cranes worldwide than any other company.

PartsKonecranes is the OEM for many of the best known brands of hoists and cranes as well as the largest single source supplier for parts of all makes. Our UK Parts Centre located in the Midlands holds over 100,000 spare parts, all of which are available 24/7. We have the most extensive inventory in the industry, as well as dedicated in-house parts manufacturing and extensive reverse engineering services to assist you with obsolete and/or not readily available parts. Our expert technicians are always available to help with field installation and support.

TrainingOur UK based training school is located in Banbury, Oxfordshire. We are able to offer extensive specialised training and instructions not only for our technicians and inspectors, but also for your service staff and crane operators. For any training enquiries please contact your local branch.

Industrial & Commercial DoorsKonecranes UK Industrial and Commercial Doors business is based in the Midlands, but extends across all areas of the country.
