Wensley Consulting specialises in Mechanical and Electrical Building Engineering Services. The company was formed in 1998 in Sale Cheshire and now comprises three offices located around the country. The company seeks to design Building Services which are able to improve our clients bottom line profit. This can take several forms: Designing the engineering services to maximise client income through reducing servicing areas or securing the office environment. •

Using whole life costing to reduce the financial impact of the services costs.

- Designing services which meet the corporate objectives in reducing the services impact upon the environment.
- Identifying failing services and introducing pragmatic and cost efficient services.
- We achieve this aim by employing experienced, qualified staff who are committed

to the above principles.

- The company operates from two main offices, Manchester and

Newbury. SCOPE Wensley Consulting carries out Building Services engineering in all of the following areas: • Design of commercial, industrial and domestic building

engineering services

- Site inspections and surveys
- Peer Reviews and value engineering
- On site measurement, testing and commissioning
- Fault diagnosis and correction
- FM surveys for M&E and FFM&E
- Expert Witness "THE ENGINEERS ENGINEER" A large number of our clients are

engineers, this serves to reflect the standard of our engineering and the quality of

our service. HEALTH AND SAFETYWensley Consulting have a full health and safety policy which is reviewed annually. The company is committed to maintaining health and safety training of the staff.
