Shaws Bespoke Joinery Welcome to Shaws Bespoke Joinery LLP, the answer to all your bespoke joinery needs. We have over 30 years experience of offering beautiful high quality wooden french doors, hardwood front doors, double glazed sash windows, hardwood windows, or patio / sliding doors for the home. Bespoke joinery solutions for the 21st century The new building regulations state that the minimum WER window rating is now "C" rated; we design and build all of our windows so that they meet "A" rated specifications, and our works are all registered with the BFRC Authorised Retailer Scheme.

Take a look around our website for more information on our products; sliding French doors, patio doors, hardwood front doors, bi-fold doors, wooden French doors, double glazed sash windows, storm proof windows, mock sash windows, hardwood windows, porches, stairs, garden rooms and more. Make your home beautiful At Shaws Joinery, we believe in making your home look beautiful with our sliding French doors, hardwood windows and other bespoke joinery creations. We also believe preserving traditional buildings and techniques and adapting them to suit today's market.

Subsequently one of our specialisms includes working with listed buildings, to restore them to their original beauty without threatening traditional features. All are products are created with your space in mind, so you can get the best out of our

beautifully designed windows, doors and conservatories. More about our folding & sliding French doors Folding sliding doors are now a hugely popular piece of home décor, and you may have heard about the benefits that come with having them installed in the home. Here are the myths explained around folding sliding doors.

Safety - some people feel that having floor to ceiling glass doors is not as safe as other types of doors. However, folding sliding doors are made of doubled glazed glass that is designed to be durable and safe. This type of door is designed with security in mind and is equally as safe as your existing door. The strengthened glass can provide protection from the elements as well as added security to your home.

Sliding sash windows At Shaws Bespoke Joinery LLP, the design of our sliding sash windows allow the sash to glide smoothly, ensuring maximum durability. Much attention is brought to the timber itself to minimise any possible swelling and warping that affects sash windows of a lesser quality during wet weather. A sliding sash window consists of two sashes that operate vertically sliding up and down in the track. Alternatively we can fit mock sash windows. These are visually very similar to a sliding sash windows. However, this type of window is a top opener over a fixed pane, thus creating the look of a sash window.

Bi-fold doors At Shaws Bespoke Joinery LLP, we are recommended for the way we manufacture and fit our quality range of bi-fold doors.

Customised using your choice of timber and manufactured to your specific requirements, a range of bi-fold doors are sure to add a unique style of class to your home. Bi-fold doors can operate a variety of functions, including convert one internal space into two separate areas and pulling the outside landscape indoors. For our commercial customers, they are perfect for creating extra office space, as well as meeting areas. Some of the Services we Offer Include:
