Leemark Spinings For metal spinning, Leemark Spinings is a family run business based in Birmingham, West Midlands UK who are highly focused on delivering high quality worked supported with great customer care!

In 1998 Leemark Spinings bought out RH Burman who had been trading over 75 years. This enabled Leemark to offer greater scope to manufacture metal spinning and a broader range of skills and services that 15 years onward have resulted in a higher quality of metal spinning and other fabrications to our customer base. As a result Leemark Spinings Ltd now offer metal spinings and fabrication components on multiple finishes. Leemark Spinings also continue to produce metal spinings and fabrications on fuel tanks for aircrafts to the winner's cup for Nascar races! The production of metal spinning from Leemark Spinings' Birmingham UK based workshop really do offer clients a wide selection of solutions and options for each and every one of your required metal spinning tasks.

As far as the metal forming services provided by Leemark Spinings is concerned, they specialize in working with customers on new ideas and like to follow them from the design stage all the way through to completion. Leemark Spinings are happy to work on smaller quantities but if a large quantity is required we have an automatic CNC lathe, which will deal with these quickly and efficiently.

Birmingham based Leemark Spinings can work with any type of metal that the

customer may require and can offer a very wide choice of finishes from polished, anodized, painted, and faceted and numerous plated finishes.

Manufacturing metal spinnings is the main forte of Leemark Spinnings - who are also experts in welding and metal forming of every type. This means you will feel safe with us every step of the way.
