Wedge Galvanizing Ltd About Us With almost 150 years of history, Wedge Group Galvanizing is the UK's largest hot dip galvanizing organisation. We have 14 plants strategically placed around the UK enabling us to offer you a truly national service for all your galvanising requirements. The Group can process anything from a 1.5mm thick plain washer to a 29 metre beam. Our continuing investment in new technology and plant, together with our commitment to customer care, ensures that we offer you first-class quality and service. Our plants are designed and equipped to set industry-leading standards for sustainability and low environmental impact. For example, we have integrated rainwater collection and storage systems, enabling rainwater to be recycled into the galvanizing process, eliminating run-off from site and minimizing the use of mains water. Our Service Commitment Wedge Galvanizing is committed to continuous quality improvement with our 'Customer Focus Initiative'. This includes regular feedback surveys to ensure our customers are receiving the best service available. We also have continuous improvement teams at every plant to implement any changes we need to make following feedback from customers. Wedge Group Galvanizing Hot Dip Galvanizing offers you long-term protection against rust and corrosion, and with almost 150 years experience you can be sure of high quality galvanising and unrivalled customer service from across the Wedge Group. We have the largest galvanizing bath in the UK at 21m long allowing us to galvanize structural steelwork up to 29m in length.

Wedge are also specialists in centrifuge galvanising for small parts and we can also galvanize continuous lengths of chain. Galvanising SteelSteelwork galvanized by Wedge can be found on motorway networks, including road sign gantries, lighting columns, foot-bridges and safety-barriers, as well as, trackside railway equipment. We also galvanize many large-scale construction projects, such as new office developments, multi-storey car parks and sports stadiums where galvanizing provides highly cost-effective and long-lasting protection for structural steelworkManufacturers of agricultural equipment, such as road trailers, animal pens for livestock auction markets, balconies, railings and fire escapes, have regularly opted to have their work galvanised by Wedge Group Galvanizing. They know its high quality galvanising service provides the toughest protection against the harshest environmental conditions.

Wedge Galvanizing service multiple locations throughout the UK including Scotland, West Midlands, East Anglia, Merseyside and many more. Some of the Services we Offer Include:Galvanizing West Midlands • Rustproofing Services West Midlands • Corrosion Prevention & Control West Midlands • Steel Coatings West Midlands • Galvanising West Midlands
