Trident Insurance What makes us different from other insurance providers Trident Insurance was formed in 1995 and became part of Advanced Insurance Centres Limited in June 2000. Good service at competitive prices With thousands of insurance brokers and intermediaries in the UK, and so many on a mission to undercut the next. We chose to revert back to basics by offering a good service at competitive prices. Champagne and Guinness Certainly with some insurance you can get cheap cover, and we all know that everyone thinks accidents will happen elsewhere. We also accept that many have Champagne tastes and Guinness budgets, and with insurance it is no different. But there can be no denying that getting cheap insurance means you are giving up rights to something for the low price, and that primarily is cover. Brokers contacts With a lot of low cost insurance products, cover is offered on screen through what is the cheapest and most expensive available. However when the premiums are substantial, suddenly there is no visible market to work with and it is down to the brokers contacts. Informed decision No broker can cover the market in full, what ever they say, because they just do not have agreements to deal with every counter party there is. So on big ticket items they are limited to where they can go. We know and admit this, and do not ever want to leave our Clients feeling they made an uninformed decision. Top dollar service Our knowledge and expertise has its limits, so we have sought out other parties that will

compliment our coverage of the market where we are insufficiently strong. In this way we are able to offer a top dollar service to our Clients, and are proud of the reputation this insurance Company has earned by adopting this approach. Every phone call a decider When we say we do seriously care about how our Clients are treated, we mean it, and view every phone call as being the decider between keeping or losing that Client. Your trust has to be earned and we know that the effort must come from us to have your support and custom. Easy to change insurance When premiums can run to many £ millions, we believe that clients should invite insurance brokers to tender for that business. If an insurance broker who is invited to tender succeeds in offering the best price and insurance cover, which we believe we can, it is not difficult to change over. Just as you change your suppliers for domestic or business issues, insurance is, in the final analysis, only another commodity. Our winning formula We want your opinion to be that we deserved to get your business and that you were happy in passing it to us. We have found that it is through this approach to service and market coverage that we are winning more and more Clients. We stand proud by our reputation of straight talking, efficiency and leaving you the Client feeling safe in the knowledge that we have offered you the best support and service around. Fully trained and assessed staff Our staff are all U.K based, fully trained and their standards of performance and knowledge are assessed monthly to meet our highest standards We only work with FCA or specific industry registered companies. Largest panel of Insurance Companies We are totally independent and will happily arrange bespoke risk. Our panel of Insurance Companies is one of the largest around and between them we have many thousands of different schemes available to us. *Trident Insurance is the trading name of Advanced Insurance Centres Limited who are Authorised and Regulated by the FCA. Registration No. 306128 Let us Compare Car Insurance for you It comes up time and time again. People looking for car insurance call us expecting nothing different to what they have already received from other insurers. In fact, what they receive is something quite different. People are amazed at how much we can help them to find a quality car insurance deal with no hassle on their part. Boat and Yacht

CoverIf you are looking for motor boat insurance or yacht insurance, coming to Trident Insurance for advice and a quote will ensure that you find you the best deal for your cover. Our expert insurance consultants can secure yacht insurance and motor boat insurance for your yacht or boat up to £5 million in value. (This applies for UK owners based in European waters.)

Home Buildings CoverHome buildings insurance will cover the cost of incidents to the internal and external structure of your property. This includes the walls, roof, ceilings, doors, floors and windows. (External structures such as fences and garages are also included.) It also covers permanent fixtures and fittings, internal decoration and pipes, tanks, drains and underground cables for which you are responsible from your house to the nearest mains supply.

Fleet InsuranceYou may have several different vehicles which you use for activities as a business. These vehicles may have been added to your fleet insurance one by one to cater for a need for more vehicles to cope with more business. This also means though, that they may all be insured separately, each with their own policy all needing to be renewed at different times.

High Net WorthHigh Net Worth is a very strange term and if you're asking what is it then here is a very street level answer. If your personal insurance premiums, excluding medical cover, for your cars, home and contents are in excess of £5k then you are deemed a High Net Worth Client

Home Contents CoverHome contents cover ensures that the contents of your home are covered against damage or loss by theft, fire, lighting, earthquake, and flood damage or water leakage. 'Contents' are defined as things you would take if you moved to a new house, for instance: furniture, electrical items and jewellery.

Landlord InsuranceIf you are a landlord who rents their property out, then you will know what impact damage caused by a storm, flood or other accident could have on your financial well-being. Having landlords insurance will ensure that your financial well-being isn't at risk should your property be damaged. Trident insurance will work for you to find you the best deal on your landlords insurance.
