Caltech Service Company Ltd, West Midlands
Welcome To Caltech Service Co Ltd
Caltech provide a varied range of Calibration, Repair, Maintenance and System Improvement services to all kinds of industrial fields and are currently managing large scheduled calibration contracts at various locations.

Our client base is still on the increase and currently includes heat treatment, car manufacture, food processing and machine tool production companies.

Caltech has recently expanded into new premises, which has enabled us to increase our scope of work further and still maintain a superior level of service to our customers.

Development of a new workshop facility is now complete and we now boast a brand new calibration laboratory, thus further enhancing our existing range of on site services.
