T.E.S. Environmental Services, Birmingham, West Midlands
ASBESTOS REMOVAL AND SURVEYS COVERING THE WHOLE OF THE MIDLANDS
TES Environmental Services Ltd based in Birmingham in the West Midlands was formed in 1996. Since then we have developed a management team that have a combined experience of 80 years within the asbestos industry. We provide asbestos removal, asbestos encapsulation, asbestos surveys, surveys & sampling services covering the West Midlands including Birmingham, Bromsgrove and Sutton Coldfield. Over the years we have undertaken many different types of asbestos removal, abatement, reporting, sampling and surveying contracts from large and complex asbestos removal operations which required multiple, methods of asbestos removal, to working within small housing projects. From extensive boiler rooms and low level, subterranean ducts to removing small electric meter cupboard ceilings and heater flues. We are the contractor of choice for many commercial and public sector clients as well as councils and housing associations but we equally value the private customer, removing the asbestos from domestic households, with the safety of their families, our primary concern. **ASBESTOS SURVEYS** We are qualified and insured to carry out management and refurbishment/ demolition surveys to identify asbestos containing materials (ACMS) within buildings and provide advice and guidance in managing the asbestos which has been identified. Some of the Services we Offer

Include:Asbestos Removal West Midlands • Asbestos Testing West Midlands •
